

OSAP PERFORMANCE INDICATORS
2006-07 Reporting Year

- Common methodology has been used for the calculations for all program related information provided by colleges. For example, graduate employment rates for college graduates are based on surveys conducted six months after graduation, whereas university graduate employment rates are based on surveys conducted two years after graduation.
- The data is effective as of November 2006, and will be updated annually.
- The Approved Program Sequence Code (APS) is a number assigned for each approved program by the Ministry of Training, Colleges and Universities.

The General Arts and Science program is usually used by students who lack academic standing in specific subject areas. They temporarily enroll to achieve entrance requirements for the programs listed above. For this reason, the graduation rate is very low as the students enter their desired program prior to completing the General Arts and Science program.
