Configuring Pulse Secure:

1. Open the Pulse secure client by clicking on the icon:

2. Click the "+" icon:

2. Enter a name for the connection and the Server URL as "vpn.conestogac.on.ca":

3. Click "Connect":

A screenshot of a Pulse Secure configuration window. It has a light gray background. At the top, there's a 'Type:' label followed by a dropdown menu showing 'Policy Secure (UAC) or Connect...'. Below that is a 'Name:' label followed by a text box containing 'Conestoga VPN'. Underneath is a 'Server URL:' label followed by a text box containing 'vpn.conestogac.on.ca'. At the bottom, there are three buttons: a yellow 'Connect' button, a white 'Cancel' button, and a red 'Add' button.

4. Enter your College User name and Password:

A screenshot of a Pulse Secure login window titled 'Conestoga VPN'. It has a light gray background. There are two text boxes: 'User Name:' with 'jdoe' entered, and 'Password:' with ten dots. Below the password box is a checkbox labeled 'Save settings' which is checked. At the bottom right, there are two buttons: a white 'Cancel' button and a red 'Connect' button.

5. Pulse Secure will show connected, you now have access to internal college services like Remote Desktop, G: Drive, and SIS:
